

OBS Cortical Fibers

OBS Cortical Fibers help stimulate natural bone formation through their osteoconductive and osteoinductive properties

100% Human Tissue

- Nothing added that may interfere with bone healing

Osteoconductive

- Ideal scaffold that supports creeping substitution during bone formation

Osteoinductive potential

- Helps stimulate osteogenesis

Great Handling Characteristics

- Shapes and conforms to any void

Easy Storage and Use

- Stores at room temperature

Sterile

- Sterility Assurance Level (SAL) of 10^{-6}

Safe

- Complies with all FDA and AATB guidelines

OBS Cortical Fibers help deliver optimal outcomes for patients
