

## Designed By Nature, Made For Healing

TheraSkin is a regenerative medical product, designed by nature and made for healing, to help health-care professionals treat difficult to heal chronic wounds. TheraSkin is a clinically proven, minimally manipulated, cryopreserved human skin allograft containing the relevant human biological components needed to help repair and heal difficult to heal chronic wounds.

### Versatile and Cost Effective

- Indicated for all wound types, head-to-toe, all depths
- Can be used over exposed bone, ligament and tendon (93% demonstrated healing rate)
- 4 sizes – can stretch to meet irregular sizes
- Flexible, yet strong; can be easily fixated (sutures, staples, or steri-strips)
- Low acquisition cost; **included as part of VA National IDIQ Contract # 36C10G18D0143 and DAPA Agreement # SP0200-19-H-0051)**
- Fewer applications required for healing, demonstrated in a large clinical study (3.23 average grafts used at 20 weeks)
- Q-Code available for office & Wound Care Clinic (WCC)
- Ability to address large wounds with 116cm<sup>2</sup> size

VA Contract Line Item # (CLIN)	DAPA Line Item # (DLIN)	Product Description	Additional Sizing
CLIN2274	DLIN2740	Meshed Human Dermis 2.5cm x 2.5cm	Size: 1.00 in x 1.00in; 6cm <sup>2</sup>
CLIN2275	DLIN2741	Meshed Human Dermis 2.5cm x 5.1cm	Size: 1.00 in x 2.00in; 13cm <sup>2</sup>
CLIN2276	N/A	Meshed Human Dermis 5.1cm x 7.6cm	Size: 2.00 in x 3.00in; 39cm <sup>2</sup>
CLIN2277	DLIN2743	Meshed Human Dermis 7.6cm x 15.24cm	Size: 3.00 in x 6.00in; 116cm <sup>2</sup>
